REFERENCE REVIEWS

Each multi-volume set in the critically-acclaimed Cultural Histories series looks in depth at a subject through the lens of six historical periods, broadly:

Antiquity | The Medieval Age | The Renaissance | The Age of Enlightenment
The Age of Empire | The Modern Age

Each volume covers the same topics so readers can either dive deeply into a particular era or follow a theme across history. Sets are available first in print for libraries needing just one subject or preferring a one-off purchase and tangible reference for their shelves, and subsequently added to Bloomsbury Cultural History online as part of a fully-searchable digital library available to institutions by annual subscription or perpetual access (see www.bloomsburyculturalhistory.com).
