Our Elgaronline Research Methods collection is ideal for all researchers - from postgraduate students starting their first research project to seasoned academics who wish to further hone their craft. Encompassing quantitative, qualitative and mixed research methods, and tailored to researchers in social sciences, law and business, it can be the entry point for any PhD or academic research programme. Amassing years of expertise from key researchers, as well as the latest in digital and online methods, it provides the tools for producing high-quality, impactful and publishable research.

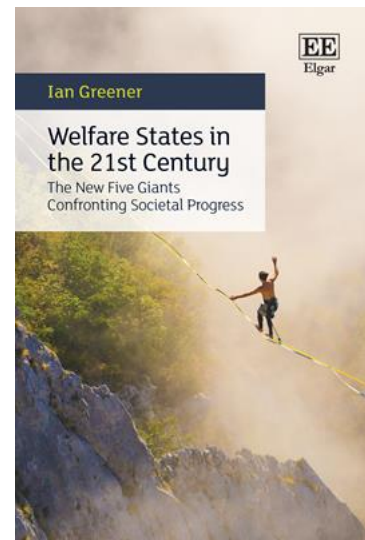

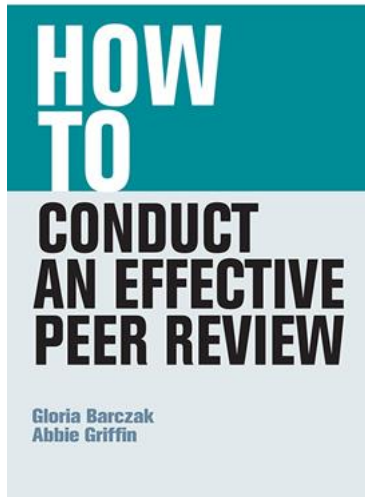

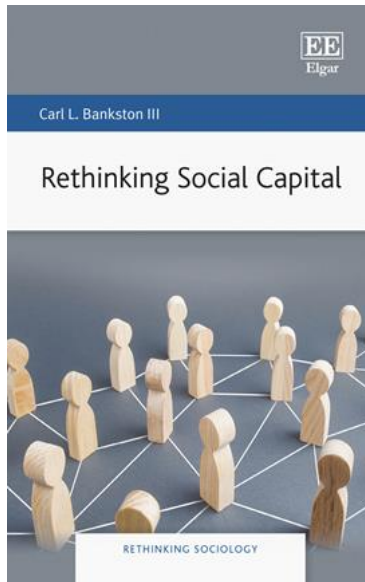

Key collection available

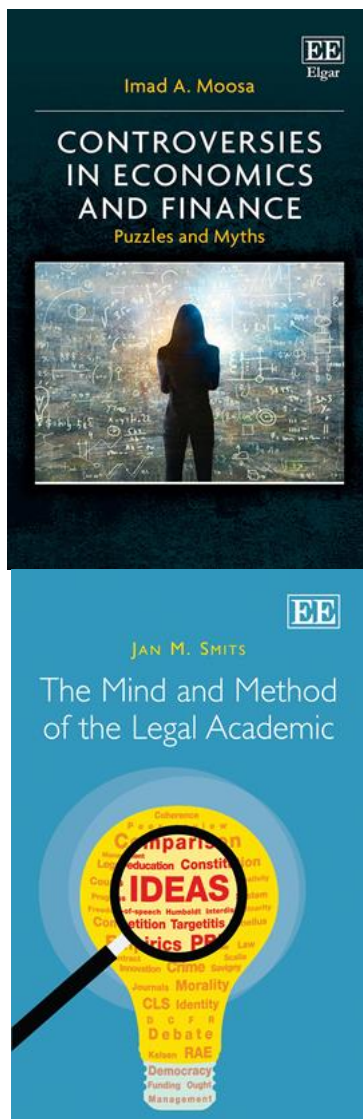

This collection includes research handbooks and monographs published to the end of 2023.
