

THE HISTORICAL DICTIONARIES SERIES

Accessible reference sources on human history for academics, students, professionals, and interested readers

Now in its fourth decade of publishing, the Historical Dictionaries series boasts over 650 titles to date with many more projects scheduled for release.

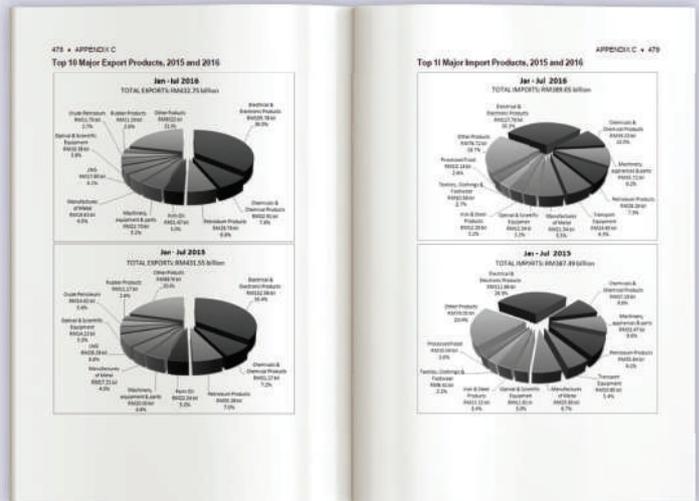

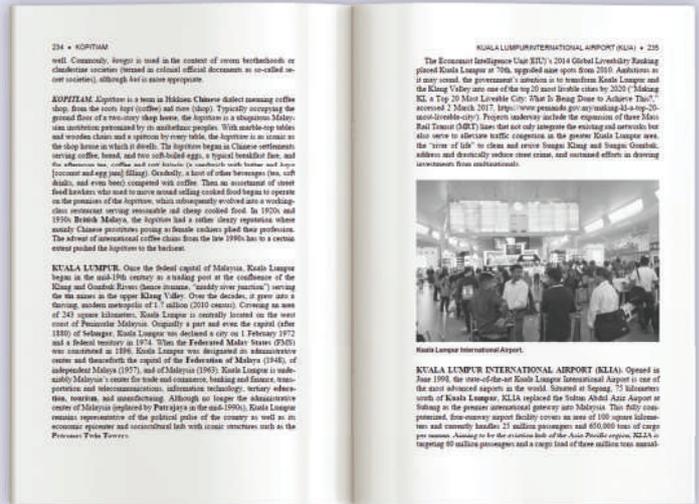

Written by eminent specialists, the Historical Dictionaries provide factual information on the political, economic, social, and cultural aspects that have shaped human history from ancient civilisations to today.

Each Historical Dictionary opens with a list of common acronyms, a year-by-year chronology, and an introductory essay providing a general overview of the topic at hand. In the back, readers will find a bibliography pointing towards further reading and specialised sources as well as appendixes listing useful additional information for deeper understanding and analysis. At the core of each volume is the A–Z dictionary with hundreds of brief, cross-referenced entries, accompanied by visual aids such as maps, photos, and illustrations.

All volumes are available in hardback and eBook and are periodically updated to include the latest developments.

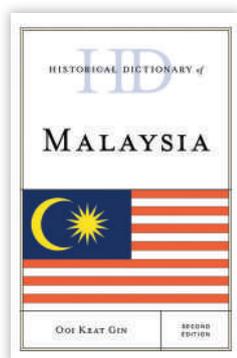

The Historical Dictionaries sub-series:

- Africa
- Ancient Civilizations and Historical Eras
- Asia, Oceania, and the Middle East
- Cities, States, and Regions
- Diplomacy and Foreign Relations
- Europe
- Intelligence and Counterintelligence
- International Organizations
- Literature and the Arts
- Peoples and Cultures
- Professions and Industries
- Religions, Philosophies, and Movements Series
- Sports
- The Americas
- U.S. Politics and Political Eras
- War, Revolution, and Civil Unrest
- Women in the World
